

## elkadent Kräuter – Gum Protection

### THE PROBLEM:

In addition to bad breath and an unpleasant feeling in their mouths, many people also suffer from infected or irritated gums. Instead of traditional mouthwash concentrates that need to be diluted before use, try a ready-to-use mouthwash for optimal dental and oral hygiene.

### THE CAUSE:

After you enjoy foods or beverages, dangerous plaque bacteria develop right in the places between your teeth that are hard or impossible for your toothbrush to reach. They can attack your teeth and irritate your gums.

### THE SOLUTION:

Our **elkadent Kräuter – Gum Protection** is a logical and necessary addition to your daily dental and oral hygiene, because it also works in the places between your teeth that are hard or impossible for your toothbrush to reach.

When used regularly after every brushing, **elkadent Kräuter – Gum Protection** comprehensively and effectively prevents cavities and new deposits on your teeth. In addition, proven natural herbal extracts of chamomile, calendula and sage care for and strengthen your gums.

Our **elkadent Kräuter – Gum Protection** mouthwash provides your breath with long-lasting, energizing freshness and gives your mouth a clean, pleasant feeling all day long.

### INGREDIENTS:

Aqua, Alcohol, Sodium C14-17 Alkyl Sec Sulfonate, Aroma, Sodium Fluoride, Calendula Officinalis Flower Extract, Chamomilla Recutita Flower Extract, Salvia Officinalis Leaf Extract, Sodium Saccharin, CI 42090, CI 47005
