

elkadent KRÄUTER

Mouthwash

elkadent *Kräuter*

- DERMATOLOGICAL TESTET (TEST RESULT: VERY GOOD),
- WITH ESTABLISHED NATURAL HERB EXTRACTS FROM YARROW, CHAMOMILE, MARIGOLD AND SAGE

THE PROBLEM:

A widespread problem amongst the population is bad breath. Many people therefore complement daily brushing with mouthwash.

THE CAUSE:

Microorganisms are often present in the small spaces between teeth which are hard to access with a toothbrush. There, they break down food remnants into dangerous plaque acids which can attack teeth and irritate gums.

THE SOLUTION:

Alongside obligatory tooth brushing for the manual removal of plaque, mouthwash can penetrate into interdental spaces and, with added active ingredients, soothe irritated gums. For this purpose, **elkadent KRÄUTER** contains a combination of plant extracts and carbamide which work to neutralise plaque acids that attack teeth.

INGREDIENTS:

Alcohol, Aqua, Aroma, Urea, Sodium C14-17 Alkyl Sec Sulfonate, Achillea Millefolium Extract, Salvia Officinalis Leaf Extract, Chamomilla Recutita Flower Extract, Calendula Officinalis Flower Extract, Sodium Saccharin, Limonene, Citronellol, CI 42090, CI 47005

WARNING:

Not suitable for children under 14 years.
Do not swallow!
Contains alcohol (54.5% vol)
