elkadent KRÄUTER 3

THE PROBLEM:

In addition to the familiar dental problems like cavities and tartar, gum problems are also a widespread phenomenon. Depending on the patient's age and habits, irritated or infected gums can be accompanied by irreparable gum recession and exposed tooth necks.

THE CAUSE:

As a common lifestyle disease, gum disease can now be found in every age group. One of the main reasons for its increase in frequency is the move away from foods that need more chewing toward fast food and ready-made dishes. Often, soreness leads to limited dental hygiene, which means that gum-damaging plaque can collect and is not adequately removed. That causes further toxic damage to the gums. As a result, receding gums or periodontitis can lead to irreparable damage; exposed tooth necks then become an unpleasant lifelong companion. .

THE SOLUTION:

When used regularly, **elkadent KRÄUTER 3** toothpaste offers comprehensive protection and lasting care for your teeth and gums. It contains selected herbal extracts of chamomile, calendula, sage and yarrow, which strengthen the gums and can help prevent inflammations. The combination of carbamide and sodium fluoride neutralizes tooth-damaging acids and makes your teeth resistant to cavities.

A special flavor profile with the active freshness formula from our "**elkadent KRÄUTER**" concentrated mouthwash gives **elkadent KRÄUTER 3** toothpaste an unmistakably fresh character. For enjoyably fresh breath and a pleasantly clean feeling for your mouth.

INGREDIENTS:

Aqua, Hydrated Silica, Sorbitol, Propylene Glycol, Urea, Sodium C14-16 Olefin Sulfonate, Xanthan Gum, Aroma, Alumina, Sodium Fluoride, Sodium Saccharin, Mentha Arvensis Leaf Oil, Calendula Officinalis Flower Extract, Chamomilla Recutita Flower Extract, Salvia Officinalis Leaf Extract, Achillea Millefolium Extract, Tocopheryl Nicotinate, Sodium Methylparaben, CI 42090, CI 47005

Contains sodium fluoride (1450 ppm F)

WARNING:

For adults only. Not suitable for children under the age of 6!
